

DERBI-TITE SENTINEL® 200 FASCIA

DESCRIPTION

DERBI-TITE SENTINEL® Fascia system complements any building's aesthetics by covering exposed fasteners and unsightly cover plates. Dual attachment points on both the face and roof deck allow for added flexibility when accommodating roof irregularities.

PRODUCT SELECTION

DERBI-TITE SENTINEL® 200S Fascia features a snap-on cover that eliminates crimping, substantially reducing installation time on single-ply roofs. Snap-on fascia is available in the following sizes: 5¼", 6¾", 8¼", 9¾", 11¼", 12¾".

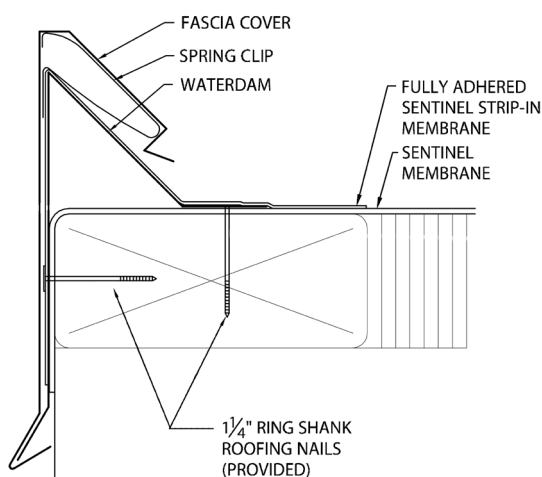

DERBI-TITE SENTINEL® 200C uses a crimping method for securement, for those installers who prefer a more traditional approach to edge flashing details. Crimp-on fascia is available in the following sizes: 5", 6½", 8", 9½", 11", 12½".

ADVANTAGES

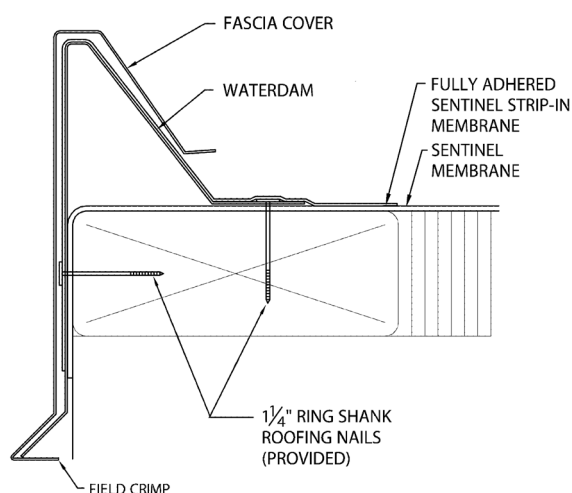

- ▶ Available in an easy snap-on or a crimp-on version
- ▶ Non-penetrating design eliminates the need for stripping-in or heat welding that are typical with other roof edge systems
- ▶ Manufactured in 12 ft lengths with pre-punched holes that are slotted to allow for proper thermal movement
- ▶ FM approved for wind uplift protection
- ▶ Carefully designed and ANSI/SPRI/ES-1 Tested to comply with the International Building Code
