

SENTINEL® PVC PIPE FLASHING

Prefabricated pipe flashing utilizing fiberglass reinforced PVC membrane

DESCRIPTION

SENTINEL® PVC Pipe flashing are prefabricated pipe wraps designed to ease the installation process while offering increased watertight security for SENTINEL® PVC roof systems. Manufactured from our 60-mil SENTINEL® P150 membrane, pipe flashings are available in six sizes and can fit pipes up to 6 inches in diameter.

APPLICATION

SENTINEL® PVC Pipe Flashings are hot-air welded to the field membrane. Seal the top of the pipe flashing watertight with mastic and a pipe clamp (included). Refer to Performance Roof Systems specifications and installation instructions for additional application guidelines.

STORAGE & HANDLING

All materials must be stored in a clean, dry location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture. Monitor varying environmental conditions during storage, handling and application.

PRODUCT INFORMATION

SKU#	PRODUCT	FITS PIPE DIAMETER <small>(inches)</small>	HEIGHT <small>(inches)</small>	THICKNESS <small>(mil)</small>	QTY/BOX
